Holy Childhood School respectfully requests a Waiver of the Filing Window for Filing Form 471, referenced above. We received notification of our 28 day waiting period following the application and certification of Form 470 on March 20, 2019.

We are a small school with limited funds and, as always, want to thoroughly evaluate all purchases. Our technology committee, made up of knowledgeable volunteers, required extra time to review the bids received as the choices that came in the bids were more complex than the committee was anticipating. The committee wanted to exercise care in awarding a contract to receive the best switches and wireless access points that would work for us within our building. Unfortunately, we don't have the funds to hire a consultant to assist us in the process of applying for E-rate and evaluating the submitted bids.

In light of the above, we respectfully request a waiver from the FCC to allow USAC to consider our Form 471 for funding for the FY 2019.
